

Cafe Zaffri

NEW YORK | USA

Interna Usa, while implementing the stunning *The TwentyTwo* hotel in New York, had the pleasure of working on the making of the Cafe Zaffri, also known as Zaf's, a cozy yet sophisticated restaurant serving interpretations of Levantine cuisine and its vibrant culinary heritage.

As for the whole hotel, Interna USA was in charge of the executive design, the manufacturing and installation of all the millwork and loose furniture, from bar counters to foot stools, from wall claddings to custom lighting, from decorations to restaurant booths.
