

Saga Spirit of Adventure

Papenburg, Germany

ID: AD Associates
Period: 2020
Client: Meyer Werft

Maiden voyage on July 26th with a British Islands tour!

The Spirit of Adventure - twin sister of the Spirit of Discovery - is the second vessel of its class to be built at the Meyer Werft shipyards in Papenburg for the luxury British company Saga Cruises. It is a small-sized vessel designed to meet the tastes and needs of discerning passengers who want to live a unique boutique cruising experience and it offers a contemporary, sober and elegant concept designed by the London-based AD Associates design studio.

The Spirit of Adventure maintains the same warm and welcoming atmosphere of its twin sister thanks to the informal furniture surrounded by refined artworks present in all the public areas. Interna was called upon to implement the complete fit-out of three public areas: the huge Britannia Lounge on deck 12, the Gym on deck 13 and the Laundrette on decks 8 and 10.
