

Monsieur George Paris

ID: Anouska Hempel
Period: 2020

Designed by Anouska Hempel, the Monsieur George has opened its doors in Paris, near the Champs-Élysées: an extraordinary boutique hotel that, with its 46 rooms and 5 stars, exudes an aura of sensual elegance.

Revolving around all the tones of dark green, while going all-white for the suites, the design creates intimate and comfortable ambiances with an almost residential feeling, through an abundance of natural light and sumptuous elements, such as marble, velvets and oversized mirrors.

Interna Asia Pacific involvement envisaged the supply of furniture for both the public areas and the guest rooms. From the lobby to the top floor suites, Interna Asia Pacific supplied unique custom-made items among which the spectacular hexagonal table at the entrance and the unique mirrors with precious Calacatta marble frames of the suites.

Each single bespoke item has been produced and installed with the utmost care and attention, always respecting the highest levels of quality.

The long-standing relationship between Anouska Hempel and Interna has led to successful hospitality and residential projects of absolute relevance both in Europe and Asia.
