For this quirky and fun hotel **Interna UK** has been called to supply loose outdoor furniture for the Double Standard bar and plush sofas, casegoods, loose furniture and a DJ station for the private club The 10th East. Furthermore, Interna UK produced and supplied all the furniture for the roof terrace including a striking perimetric banquette. All items, ad hoc concepts of the London based Shawn Hausman Design studio, have been produced with the utmost care and attention at the highest quality standards.
