

Interna UK had the pleasure to work for *The Twenty Two*, a west London hideaway, a mix of hotel and cultural space for those in the know: in addition to the works implemented for the 31 guest rooms, Interna UK also supplied all the loose furniture for the public areas of this Mayfair jewel, under the inspiring guidance of the interior designer Natalia Miyar.

Working with splendid fabrics and rich finishes, Interna produced banquettes, sofas, chairs, armchairs, bar stools, dining tables, consoles, and coffee tables for the outdoor, the two bars, the restaurant, and the nightclub. Each item, bespoke produced, has been crafted to perfection at the highest levels of quality, each material carefully shaped to match the grandeur of this magnificent location.
