

Interna Asia Pacific, upon the interior design and detailing of Indyk Architects, supplied the complete joinery and furniture package for all the guestrooms of this eccentric and innovative hotel, located within the high-end fashion district of Melbourne. The location reflects on the interior, with a design approach that has been defined as “industrial chic”: elegant lines, rich colour contrasting palettes, and the detailing of leather and steel all combined well. This is the second QT hotel for Interna, that cooperated with Indyk Architects for the QT in Sydney and for the third QT project in Wellington.
