

Hotel Vagabond
Singapore
Republic of Singapore

Interior Designer: Jacques Garcia
Period: 2015
Client: Chica Linda | Singapore
Argenta Projects | London

All things in excess: the Hotel Vagabond Singapore, a sensuous playground for the high-spirited, the mischievous and the fun lovers, an all-engulfing theatrical experience sure to form lifelong memories.

Housed in a 1950s heritage Art Deco building, the Hotel Vagabond is a luxury boutique hotel in Singapore. It opened its doors in mid 2015 after a terrific ID work by the world renowned French Designer Jacques Garcia and it is the first concept in Asia of the Maestro. Interna implemented this prestigious turn-key project through its sister company Interna Asia Pacific that since 2007 brings the Italian quality and charm to the Asian-Pacific area.

Interna's scope of work was the supply of all loose furniture and joinery for both public areas and guestrooms: chairs, armchairs, stools, sofas and benches, desks, all kind of tables and consoles, banquettes, bar counter, kitchen counter, wall panelling, headboards, screens and wardrobes.

Once more Interna long lasting cooperation with Jacques Garcia found superb expression within this hotel. Many of the items have been designed and produced specifically for this project, while many others have been selected, with customized materials and finishes, from Interna furniture catalogue Les Grands Classiques de Jacques Garcia, that counts more than 50 Garcia designs produced with the highest standards of quality and distributed exclusively worldwide.
