interna.it

Interna confirms this year too its participation to the Salone Internazionale del Mobile in Milan where it will present the preview of its new collection of furniture for the contract sector designed ad hoc by the Parisian Maestro Bruno Moinard.

The monograph Collection Président, presents around twenty pieces of furniture - tables, coffee tables, desks, armchairs, sofas, consoles, cabinets, lamps and accessories - specifically created for those more luxury and intimate spaces such as hotel suites - in particular the residential ones - lounge clubs, VIP areas and hotel apartments. It is also suitable for the high end office sector, for the presidential and high level managerial offices, and, as for all Interna collections, it is completely flexible and customizable in terms of materials and finishes, meeting any design requirement.

The collection is marked by a sophisticated contemporary style expressed in clear and pure lines, through an elegance that refuses any form of ostentation but pays great attention to the harmony of proportions, to the chromatic unity, to an unusual mix of materials, to the high quality of manufacturing and to even the most hidden detail. The result is a discreet luxury, a simple richness: the charm of the essential is just a first impression that conceals the great attention to details shortly after discovered.

Produced in compliance with high quality standards that integrate tailor-made manufacturing and hi-tech industrial production, la Collection Président represents a tribute to the excellence of design, to the Italian manufacture tradition and to the comfort that improves life.
