Milano

Collection Président

Bruno Moinard for Interna

Bruno Moinard

The idea was to create functional furniture, but not obviously so, contemporary furnishings, dynamic and warm, chic and architectural. So a certain imbalance in the proportions, a certain asymmetry in the volume has been favoured, as to give the entire collection a nomadic resemblance full of sensuality.

This is the Manifesto of the Collection Président, a truly unique line designed by the Parisian Maestro Bruno Moinard, twenty pieces of furniture that Interna, historically devoted to the most sophisticated and precious tailoring, is launching at the Salone del Mobile in Milan 2015.

Leccie - Coffee

Borgeo - Working table

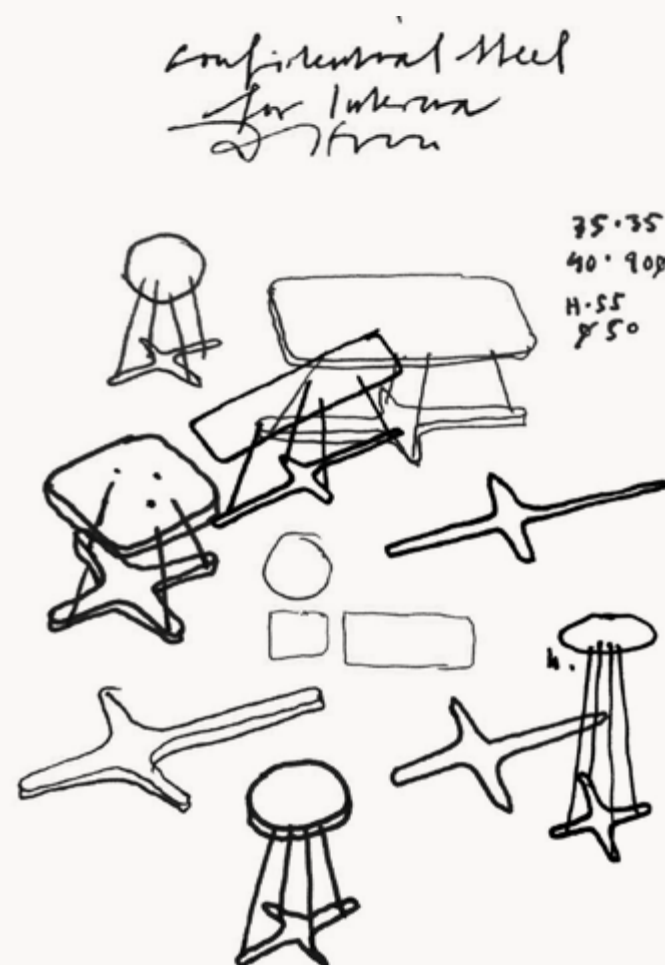

Orbine - Lounge chair

Contemporary Collection

Alfredo Häberli | Franco Poli | Hannes Wettstein for Interna

Furthermore Interna exhibits some of its bestsellers, iconographic furnishings strongly representative of the path walked alongside many international design Maestros, to underline that the harmony of a contract living space, now more than ever, is given by the skilful interaction of different perspectives, of different interpretations of the world.

A nomadic and global world that Interna addresses with a production one hundred percent Made in Italy, able to express the excellence of the Italian manufacture, result of an age-old tradition and a unique artistic substrate, but never disconnected from the modern know-how and technology. Among Interna historical items are exhibited:

Confidential Steel Coffee and Side Tables

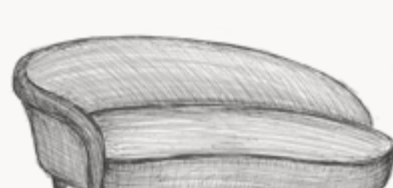

Sitty Chaise Longue

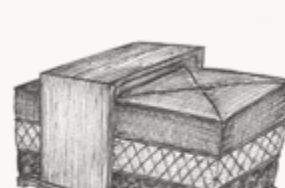

Kaara Occasional Chair

Anglodutch Collection

FG stijl for Interna

Maxima Sofa

Amalia Ottoman

All items presented at the Salone, like all the pieces of the collections of Interna, are unique, and are usually exclusively produced, allowing the customer to choose materials, finishes and dimensions of the furniture.
